Can Progressive change the interest rate?	No, the interest rate is fixed for 2 years.
What would the estimated balance be at the end of the fixed term based on a £25,000 deposit?	£27,475 This is an example based on the bond being opened on the 2nd of the month with a deposit of £25,000 for the term of the bond and assumes no further deposits are made while the issue is open. The figure above includes the total amount of interest paid in 24 equal payments to another Progressive account or your nominated bank account on the 1st banking day of each month.
How do I open and manage my account?	There are no age restrictions on this bond. The bond is available to existing Members and new customers resident in the UK. Can I withdraw money?	Withdrawals and early closure of the bond are not allowed. We will write to you in good time before your bond matures to advise you of the options available to you for the closing balance of your bond. If we do not receive written instructions from you, the quoted fixed rate of interest will cease to apply on the date of maturity and the balance of your bond will be rolled over into a new Fixed Rate Bond with a similar or shorter term, at the interest rate prevailing at that time.
Additional information	AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and compounded once each year. This will enable you to compare more easily the return you can expect from your savings over time. Gross rate quoted is the taxable rate of interest without deduction of income tax. You may need to pay tax on any interest that exceeds your Personal Savings Allowance. For more information please visit HM Revenue & Customs (HMRC) website hmrc.gov.uk . We reserve the right not to renew your bond at the end of the fixed term, but will give you 30 day's notice before the bond maturity date should we intend to exercise this right. The interest rate is correct as of 1 November 2023.
